

I-89 Signage Endorsement

Please Respond ASAP

Re: Supplemental Travel Information Signage Endorsement

The Central Vermont Chamber of Commerce is preparing to make a formal request for Supplemental Travel Information signage on Interstate 89. The Chamber Board has recommended that "Granite Quarries" be installed in the approach to Exit 6 from the south and "Mad River Scenic Byway" be installed in the approach to Exit 9 from the north.

Public support – especially from business and community leaders – is an important component for consideration by the Vermont Travel Information Council.

These are the only two approaches to exits along I-89 in Central Vermont that do not currently have supplemental signage.

Please print, check as appropriate, sign, date and fax your signed copy to **229-5713**.

_____ I strongly support installation of "Granite Quarries" at Exit 6 northbound, and "Mad River Scenic Byway" at Exit 9 southbound.

_____ I disagree with installation of the proposed signage.

_____ I support one of the proposed signs, but offer this alternative for the other:

_____ 6 NB _____ 9 SB

Signed _____ Date _____

Representing (business name) _____

PS – Vtrans is planning to replace several of the aging existing signs with new ones next spring, and time is critical. We need the new signage to become part of the replacement project. (Vtrans plans to replace "Goddard College" with "E.F. Knapp State Airport.")

PPS – The Chamber does not support changing "Welcome to Montpelier Capital of Vermont" to "Vermont College of the Fine Arts" as has been suggested.

If you have any questions, comments or need additional information before responding, please call the Chamber at 229-5711.

THANK YOU !!
Central VT Chamber
